

Unit 3 Assessment (continued)

- 9 Write a number sentence to match each array.

a. $\bullet \bullet \bullet$
 $\bullet \bullet \bullet$

Number sentence: _____

b. $\bullet \bullet$
 $\bullet \bullet$

Number sentence: _____

- c. Which array, a or b, in Problem 9 shows a multiplication square? Explain.

- 10 Li does not know the answer to 6×4 . She does know that $5 \times 4 = 20$, so she uses it as a helper fact. Li starts by drawing this array for $5 \times 4 = 20$:

$\times \times \times \times$
 $\times \times \times \times$
 $\times \times \times \times$
 $\times \times \times \times$
 $\times \times \times \times$

Show on the picture and explain how Li can use this array to help her figure out 6×4 .
