

Wednesday March 25th, 2020

Hello students! Here is the work for Wednesday March 25th.

Reading:

We will continue practicing work with poetry. You learned and read examples of metaphors and this poem provides many examples of metaphors that you will be asked questions about.

Spelling:

No Spelling this week.

Vocabulary:

Complete the Lesson 26 Weekly Quiz. Try not to use your definitions!!!

Writing:

Try your best to write metaphors about each person in your family. Use the example from the poem read in reading. REMEMBER: You are not using words “like” or “as” because those are saved for similes!

Social Studies:

Explore the website <https://www.dkfindout.com/us/history/mesopotamia/> to begin learning about Mesopotamia. Look around and click something that look interesting to you! We will continue to practice with this topic in social studies for the next couple of weeks.

Science:

Complete the Simple Machines Identification of everyday objects worksheet ONLY #s 1-12. You will complete the rest tomorrow. If you don't know an item, ask an adult or google it on the computer. If you are unsure of an item, try to find it in your house and move it a couple of times to see it in motion.

Math:

Purple Group: Complete part 1 (pgs. 20-21) of your Unit 3 Assessment. If you need to use tools, I have attached fraction circle pieces that you can print and cut out!

Orange Group: Complete part 1 (pgs. 25-26) of your Unit 3 Assessment. Remember the strategies we used in class to help us figure this out. Links to SRB pages are attached. You need to login to see them. Feel free to click on any practice problems and have the book read sections to you.

What's My Rule book pages 74-75
